

EHDD Internship Program

EHDD is committed to fostering the next generation of architects and welcomes internship applications throughout the year. The ideal intern is enthusiastic, dedicated, and passionate about architecture. Revit, Lumion, and Adobe CS skills are an asset, as are excellent written, verbal, and graphic communication skills. To qualify, you must be currently enrolled in an accredited architecture, interior design, or related degree program. Please send your cover letter, resume, and portfolio in a single pdf to **E.Internship@ehdd.com**. Applications are reviewed on a quarterly basis.
